Refer to Annexure for Details of Instruments & Bank Facilities

Detailed Rationale

Crisil Ratings has downgraded its rating on the long-term bank facilities of Trident Texofab Limited (TTL) to 'Crisil B/Stable' from 'Crisil B+/Stable'.

The downgrade factors in the continued stretch in the liquidity profile. Overall, net cash accrual remained at Rs 2.3 crore as on March 31, 2026, which was insufficient against debt obligation of Rs 3 crore. However, the gap was met through available bank lines and unsecured loans of Rs 10 crore. The working capital cycle remained stretched, with gross current assets (GCAs) at 277 days, driven by high receivables and moderate inventory of 150 days and 67 days, respectively, as on March 31, 2026. This led to high bank limit utilisation of 87% on average for the 12 months through May 2026, with full utilisation observed in several months. Improvement in financial flexibility and the liquidity profile will be a key rating sensitivity factor.

The rating reflects exposure to intense competition, susceptibility to volatility in raw material prices and large working capital requirement. These weaknesses are partially offset by the extensive experience of the promoters in the textile industry and the average financial risk profile of the company.

Analytical Approach

Crisil Ratings has considered the standalone business and financial risk profiles of TTL.

Unsecured loan of Rs 10 crore, as on March 31, 2026, from the promoters has been treated as 100% debt as there have been withdrawals in the past. However, the loan will remain in the business to support liquidity.

Key Rating Drivers - Weaknesses

Exposure to intense competition and susceptibility to volatility in raw material prices: The textile industry is highly fragmented due to low entry barriers on account of limited capital and technology requirements and low differentiation in products. Moreover, revenue and profitability are susceptible to fluctuations in the prices of key raw materials (cotton and yarn), as raw material cost accounts for 85-90% of the total cost. However, with revival in demand and cost savings driven by investment in renewable sources of power, the operating margin is expected to be 4.5-5% over the medium term. Any adverse fluctuation in profitability will be monitorable.

Large working capital requirement: Operations remain working capital intensive with GCAs at 277 days on account of high debtors and moderate inventory. Receivables were high at 150 days due to slow realisations from customers impacted by the West Asia crisis. GCAs are expected to remain high at 270-278 days.

Key Rating Drivers - Strengths

Extensive experience of the promoters: The promoters have more than two decades of experience in the textile weaving, knitting and processing industry. Their strong understanding of market dynamics and healthy relationships with suppliers and customers will support the business. Revenue was Rs 118 crore as on March 31, 2026, and is expected to grow at 4-5% over the medium term, which will be monitorable.

Moderate financial risk profile: The financial risk profile is moderate, as reflected in total outstanding liabilities to tangible network (TOLTNW) ratio of 1 time and gearing of 0.6 time as on March 31, 2026. Debt protection metrics are adequate, with interest coverage and net cash accrual to adjusted debt ratios estimated at 1.51 times and 0.07 time, respectively, in fiscal 2026. The company's network improved to Rs 55 crore in fiscal 2026, supported by equity infusion through conversion of share warrants to equity. In the absence of any major debt-funded capital expenditure (capex), the financial risk profile is expected to remain moderate.

Liquidity

Stretched
Bank limit utilisation was high at 87% for the 12 months through May 2026, with several months reporting full utilisation. Cash accrual remained insufficient against term debt obligation, with net cash accrual to debt obligation ratio at 0.77 time in fiscal 2026. Net cash accrual is expected to tightly match the debt obligation in fiscal 2027. The gap is expected to be

served through unsecured loans of Rs 10 crore as of June 2026 and utilisation of working capital limits. Improvement in overall liquidity remains a key rating sensitivity factor. The current ratio was healthy at 2 times as on March 31, 2026.

Outlook Stable

Crisil Ratings believes TTL will continue to benefit from the extensive experience of the promoters. Timely, need-based funding support from the promoters is likely to continue.

Rating sensitivity factors

Upward factors

- Steady revenue growth and operating margin sustaining above 5%, leading to better-than-expected cash accrual of more than Rs 3 crore
- Improvement in the working capital cycle and sustenance of moderate financial risk profile

Downward factors

- Decline in revenue or profitability resulting in net cash accrual below Rs 2.3 crore
- Further stretch in the working capital cycle, with GCAs crossing 300 days with continued full utilisation of bank limits
- Large, debt-funded capex impacting the financial risk profile

About the Company

Incorporated in 2008, TTL manufactures and trades in textile fabrics used in home furnishing products and clothing. Its facility in Surat, Gujarat, has installed capacity of 20-25 lakh metre of fabric per month. The company was listed on the small and medium enterprises platform of the Bombay Stock Exchange in 2017. Hardik Desai and Chetan Jariwala own and manage the business.

About Crisil Ratings Limited (A subsidiary of Crisil Limited, an S&P Global Company)

Crisil Ratings pioneered the concept of credit rating in India in 1987. With a tradition of independence, analytical rigour and innovation, we set the standards in the credit rating business. We rate the entire range of debt instruments, such as bank loans, certificates of deposit, commercial paper, non-convertible/convertible/partially convertible bonds and debentures, perpetual bonds, bank hybrid capital instruments, asset-backed and mortgage-backed securities, partial guarantees and other structured debt instruments. We have rated over 33,000 large and mid-scale corporates and financial institutions. We have also instituted several innovations in India in the rating business, including ratings for municipal bonds, partially guaranteed instruments and infrastructure investment trusts (InvITs).

Crisil Ratings Limited ('Crisil Ratings') is a wholly-owned subsidiary of Crisil Limited ('Crisil'). Crisil Ratings Limited is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI").
